Subject: March 24th date for Tower Standard meetings

Bob,

I am wondering if you could find out if LDF would be available for the all parties meeting and a technical meeting if it occurred on March 24th. I talked to John Robinson about this today and he said that is the only date that works for REI, DNR and us (EPA). REI is the real constraining factor. John hasn't checked with the tribe. Can you do that?

John doesn't think there will be other dates that will work if we wanted to have a technical meeting one day and an all parties communication meeting another. REI's schedule is extra busy. It seems like we have to do everything we want on the 24th. Meanwhile, I think Margaret is considering going to this meeting too. We have to sort all this out.

Location is an issue too. John offered Minocqua or Rhinelander but I suggested that it might be a selling point for the tribe to attend on the 24th (something we don't have a lot of flexibility over and is being dictated by other peoples' calendars, not the tribe's) if they can host. Not sure that it is the best solution but something to keep in our back pocket.

You can call LDF before I get in in the morning or we can call together.
